**Subject:** RE: hold for Dominion Pond Closures Design Consistency meeting  
**Attachments:** Possum Point Dewatering Discharge Evaluation.pdf

All,

Attached is the dewatering discharge evaluation for Possum Point that we discussed during last week's meeting. We looked at three different discharge locations: Outfall 005, Outfall 004, and Outfall 001/002 and estimated allowable concentrations are proposed for each location. Documentation for development of the estimates is also provided.

Please let me know if you have any questions.

Thanks,

Ken

**Subject:** hold for Dominion Pond Closures Design Consistency meeting  
**When:** Thursday, April 09, 2015 11:00 AM-1:00 PM (UTC-05:00) Eastern Time (US & Canada).  
**Where:** Innsbrook 1 - NE - A conf room

Team,

Below in **red** are the areas of specific discussion at the meeting this Thursday. Please be prepared to discuss them.

Thank you.

Bob Jackson

- **Review of site aerials with pond names and outfalls superimposed**
- **Review of Gantt Chart templates with major activity and outfall flows**
- **Dewatering discharge characterization (including review of Brema analytical results if available)**
- **Low volume waste characterization**
- **Dam Safety design requirements**
- **Tree removal**
- **Construction stormwater permitting and pervious vs. impervious surface evaluations**
- **Other topics as needed**

This is a calendar hold for a meeting to discuss **Design Consistency** for the ash pond projects at Chesterfield, Possum Point, and Brema. Meeting will be Thursday 4/9 from 1100 to 1300 hrs. Lunch to be provided. Please be advised and bring a **few** key personnel.

Details/agenda by Monday 4/6 close of business. Dominion DES may send the next detailed invitation, at which time there may be an expanded invitee list.

Chris, please bring a Geosyntec rep as you see fit.

Thanks,

Bob Jackson
